PROFESSIONAL SUMMARY

Senior Frontend Developer with 9 years of experience building web applications across high-traffic, B2B, and broader digital product contexts. I work mainly with React, Next.js, TypeScript, and Astro, with a focus on frontend architecture, microfrontends, and web performance.

SKILLS

- Languages & Core:** TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS
- Frontend:** React.js, Next.js (App Router, Server Components), Astro, Web Components, CDN delivery
- Full-stack & AI:** Google Gemini, Windmill, Supabase (PostgreSQL, pgvector), Telegram / Meta WhatsApp APIs, Stripe
- Quality:** React Testing Library, Jest, Playwright (E2E), Storybook

EXPERIENCE

Senior Frontend Developer | Reclame AQUI, Brazil | Apr 2026 - Present

- Contribute to frontend architecture decisions across high-traffic surfaces and user-facing flows.
- Help teams implement React patterns, TypeScript standards, and frontend performance improvements.

Frontend Developer (Mid-level / Pleno) | Reclame AQUI, Brazil | Feb 2023 - Apr 2026

- Developed and maintained microfrontends distributed through a CDN, allowing parts of the application to be deployed independently.
- Contributed to the architecture of a multi-tenant identity system built with Astro and React.
- Developed a B2B registration microfrontend integrated with A/B testing.
- Implemented CI/CD pipelines and contributed to frontend performance improvements.
- Contributed to architectural decisions for a high-traffic platform.

Freelance Product & Full-stack Engineer | Independent | Jan 2025 - Present

- StackBrief (2026): shipped a micro-SaaS that matches dependency releases to lockfile versions and sends a short daily brief (web + Telegram). Next.js, Windmill, Supabase, Stripe (BRL/USD), PT-BR/EN/ES. Live at stackbrief.erbsu.com.
- Dieta e Treino (2026): self-hosted Telegram bot (Bun/Windmill) with Gemini agents Ana/Renan for meal and workout logging, Next.js landing + dashboard from a bot link (Supabase RLS, Groups opt-in, Stripe trial path). Live at dietaetreino.erbsu.com.
- Portfolio (erbsu.com): Astro case-study site, near-zero JS by default, deferred analytics, Playwright coverage.

Frontend Developer (Junior) | Reclame AQUI, Brazil | Apr 2021 - Feb 2023

- Developed standardized React components for the platform.
- Implemented state management with Context API and Recoil.
- Maintained and evolved the frontend codebase.

Technical Account Consultant | Reclame AQUI, Brazil | Apr 2017 - Mar 2021

- Joined Trustvox in April 2017. After Reclame AQUI acquired Trustvox in 2019, continued working on the product as part of Reclame AQUI.
- Supported technical API integrations for enterprise clients.
- Created API documentation using Postman.
- Optimized product SEO with rich snippets for e-commerce.
